

# KenCrest Safety Assistive Devices

The following assistive devices are suggestions that are periodically used within KenCrest. Each link takes you to a web-page where you can purchase the device. Reimbursement through insurance is based upon individual insurance policies. Check with the insurer prior to purchasing to confirm reimbursement.

## Only authorized representatives of KenCrest can place orders.

Please note that the vendors who post each web-site may change prices, links, options, etc at any time. This document has been created by Comprehensive Injury Prevention Solutions, Inc. as a quick link to periodic recommendations made at KenCrest facilities. Wayne Wurtz, President of CIP Solutions, has been a member of KenCrest's Agency-Wide Safety Work Group since 2002. Please call Wayne @ 215-715-6864 should you have any questions.

## SafetySure Transfer Board

**SafetySure™ Transfer Boards** bridge the gap between two transfer points. The board's anti-slip tape enables it to remain immobile during transfer procedures. The upper side of the board is slick to allow the patient to slide easily. Flexible plastic. Boards come in 23" and 30" lengths and are available in a Butterfly version with backside protection panels. Two-year warranty.

SKU	Description	Wholesale Price	Qty	In-Stock

## Who

Designed for any disabled or handicapped wheelchair user who cannot walk and must be carried, but especially for someone with limited upper extremity strength or balance issues unable to transfer themselves who requires transfer assistance from others

## Example Activities

**Travel** (be prepared for the unexpected, even in accessible locations, an elevator might be out of order or the vehicle with a wheelchair lift broke down)

- Aircraft - large commercial, smaller regional, and even private/recreational.
- Train, inaccessible Bus, Van, or automobile (indispensable when exploring less developed countries, when adapted vehicles are not affordable or available such as rental cars or taxis)
- Cruise Ship - dis-boarding in smaller ports of call & take advantage of local sightseeing opportunities that might otherwise not be possible
- Stairs (be carried up or down separate from wheelchair)
- Bed (when lifts are not available, cannot be used because of no space under bed, bed is wrong height, or those assisting with transfer simply don't have the experience or strength for sliding board, standing pivot or other transfer techniques)

**Recreation** (do and try new things that were otherwise simply too difficult or thought impossible)

# KenCrest Safety Assistive Devices

- Kayak, Canoe, Sailboat, Speedboat
- Sit Ski (water or snow), tubing, sledding
- Camping (wheelchair to sleeping bag)
- Swimming, Beach, Picnic (wheelchair to grass/sand/water - Pool, Lake, Ocean)
- Amusement Park (experience the roller coaster for the first time or again)
- Biking - Recombinant, Arm Bike / Hand Cycle, even tow trailer seat
- Motorsports - ATV, Snowmobile, Go-kart
- Horseback Riding (combined with a sturdy tree, 4 rock climbing Carabiners, a belay safety equipment & rope)
- Hunting & Fishing - duck boat, tournament angler boat, ATV / Ranger, etc.
- Tree stand (combined with a sturdy tree, 4 rock climbing Carabiners, belay safety equipment & rope)

## **At Home**

- Recliner, Couch, Standing Frame, etc.
- Emergency - fall out of wheelchair / wheelchair tips over
- **Emergency Evacuation** (Hurricane Katrina demonstrated disabled people need to be prepared themselves and can't always depend on rescue workers who may not have the required equipment)
- Fire (elevators shut down)
- Flood, Tsunami, Hurricane ( - go to higher level or evacuation by boat)
- Tornado (go down into basement or other secure, wheelchair inaccessible location)
- Earthquake, Landslide, even Terrorism, etc. (crumbled buildings & debris)

## **Benefits**

- Safer with less chance of individual being dropped or injured
- Comfortable for individual being transferred, less chance of being lifted in a painful manner
- Maintains individual in natural seated position while securing legs during transfer
- Easy repositioning, especially pulling individual all the way back into seat
- No more torn clothing or embarrassments from accidentally dislodged or disconnected urinary collection devices
- Only 2 individuals required to assist with transfer
- No special skills or training for those assisting with transfer required
- Transfer lifting can be performed from front & back (aircraft) or each side (kayak)
- **Saves backs or other strain injuries of those assisting with transfer**

## **Features**

- Easily slipped around individual while seated in wheelchair or any other seat
- Fits securely like special-purpose clothing - can be left in position during activity
- Lightweight & folds up for compact, easy portability such as in exterior pocket of carry-on luggage
- Super Strong & Durable - made of top-quality materials & **American-Made Craftsmanship** for many years of use
- Machine washable
- Highly Adjustable! 2 Sizes accommodates almost all individuals up to 380 pounds!

## SafetySure™ Transfer Belt

**SafetySure™ Transfer Belt** is used to assist patients with standing, sitting, and other activities. Numerous handgrips and an anti-slip surface reduce the risk of the belt slipping. The “fix lock” buckle allows the belt to be tightened once the patient is standing without having to open the belt. Available with the standard padded lining or with a synthetic sheepskin lining for patients with delicate skin. Two year warranty.

## AliMed® Lift-Easy Transfer Belt

---

# KenCrest Safety Assistive Devices

**AliMed® Lift-Easy Transfer Belt** has a superior design that makes lifting easier. It may be used like any other transfer belt, but when the thigh straps are wrapped in place you get additional lift leverage. Less force is exerted by the therapist, and the patient is given a heightened sense of security for the patient. We have even added two loops that facilitate use as a gait belt. VELCRO® brand closures simplify use.

*Sizing: Measure waist in inches.*

SKU	Description	Wholesale Price	Qty	In-Stock
