SELF-RELIANCE GROWS HERE

KenCrest is committed to integrating independence-generating technologies to support people with disabilities in their everyday lives. Our Enabling Technology department is an accredited “technology-first” provider; and empowers people with innovative solutions to support their goals.

KenCrest’s Enabling Technology services start with a conversation to understand what someone wants to do or achieve. The assistive tech team then searches for the right solution. The array of technologies KenCrest has implemented through the Enabling Technology department is broad, ranging from off-the-shelf devices and tools to customized technology systems.
