Your Dreams. Our Mission.

# KNOWLEDGE GROWS HERE

## EARLY LEARNING CENTERS

For over a century, KenCrest has led the way in giving children in underserved families a great head start through community-based early learning centers in Philadelphia. All KenCrest Early Learning Centers in Philadelphia are accredited by the Pennsylvania Keystone STARS program and use the HighScope curriculum to support positive development academically, socially, physically, and emotionally for total child growth.

### Programs Offered:

- Infant-Toddler Care
- Head Start / Early Head Start
- PreK Counts
- Before and After Care
- Summer Care
- Child and Adult Care Food Program

KenCrest values community diversity. The team at each center supports not only students, but their families as well in ways that encourage strong family ties to provide the best developmental foundation available.

### Our Early Learning Curriculum

KenCrest uses the HighScope curriculum, which emphasizes active learning. Children have direct, hands-on experience with teachers and peers, materials, events, and ideas. We provide children with carefully planned experiences in reading, writing, mathematics, science, wellness, and nutrition. We encourage each child's natural curiosity, and work to foster a life-long love of learning and develop healthy lifestyles. Our program offers a free healthy breakfast and lunch for all children.
