KenCrest SWIFT Support Program

From Frustration and Exclusion to Connection and Inclusion

Helping every child—and every center—succeed.

Why SWIFT?

A Philadelphia survey revealed that 37% of childcare programs had suspended or expelled a child under five. Nationally, preschoolers are suspended or expelled at three times the rate of school-aged children.

Children with disabilities represent just 13% of the preschool population—yet account for 75% of all suspensions and expulsions.

The SWIFT Mission

We are committed to eliminating suspensions and expulsions for children under age five in early learning centers.

SWIFT blends trauma-informed practices with positive behavior support strategies to build high-quality, inclusive early education environments where every child can learn and thrive.

The SWIFT Difference

- 176 referrals
- Over 80% of children remained in their childcare center
- Over 90% of educators surveyed expressed increased workplace satisfaction after SWIFT participation

These outcomes demonstrate that SWIFT helps keep young learners in inclusive, supportive environments and highly qualified, dedicated teachers in our classrooms.

(Data from March 2021 – June 2024)

Bringing SWIFT to You

12 Month SWIFT Support Certification Program

Live coaching & self-paced virtual modules

2026 Cohorts (30 seats each)

- Spring: April 1 start
